**Subject:** BLRR v. City of Buffalo

Rob, in order to propose search terms for the 311 and IA Pro databases, we need a better understanding of your search capacity for those databases. Please confirm (separately for each database) whether you or your vendor has the capacity to run the following types of searches:

1. apples AND oranges
2. apples OR oranges
3. apples AND (oranges OR grapes)
4. apples AND oranges BUT NOT grapes
5. apples w/4 oranges
6. apple~ (stemming search – would pick up apple and apples)
7. appl\* (narrow wildcard search – would pick up apple, apply, but not apples or application)
8. appl! (broader wildcard search – would pick up apple, apples, apply, application etc.)

In addition, we would like to follow up on the Housing and Strike Force Daily Reports – please let us know when you are available to speak.

Thanks,  
Claudia
